MANAGEMENT DEVELOPMENT AND TRAINING

Unearth Talent offers a full warranty on our recruitment service – a candidate will be replaced by us at no charge if they leave the client's employment in the first three months of employment, for whatever reason.

Whereas we focus on Recruitment, we provide Management development and training services.

Our training is very interactive and commits the participants to action plans where the skills can be easily transferred to the workplace.

Our trainers are competent with experience in industry but also consulting and therefore have been exposed to International best practice.

Most personnel are promoted on the basis of their technical competence while their management skills are not adequately developed. High turnover of staff in organizations research has shown is caused by unskilled managers of people. Our management training seeks to address this gap or problem. Our approach to development is wider than just training. We may provide coaching services on a case by case basis. We usually do this for Talent that has been identified for promotion or succession planning.

For any clarifications, you are welcome to contact us on the given phone numbers or through email. Thanking you & assuring you of our best services always.
